

Mission

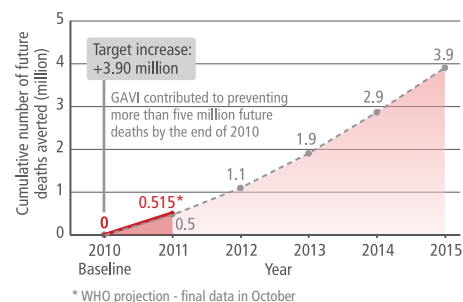

Saving children's lives and protecting people's health by increasing access to immunisation in poor countries

Goal-level indicators
Updated: May 2012

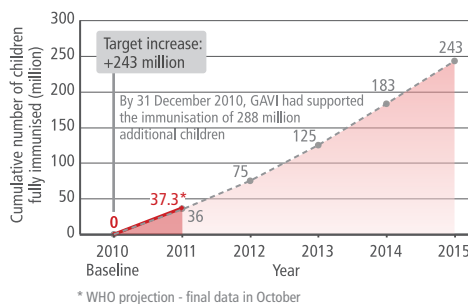

Mission indicator A:
Under-five mortality rate

Mission indicator B:
Number of additional future deaths averted

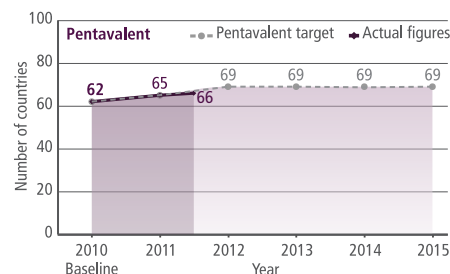

Mission indicator C:
Number of additional children fully immunised

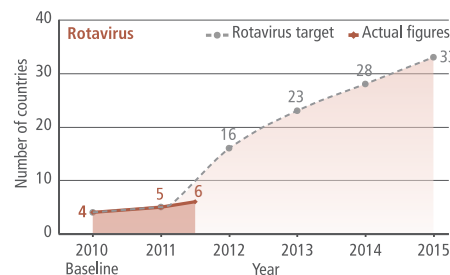

1 Accelerate the uptake and use of underused and new vaccines

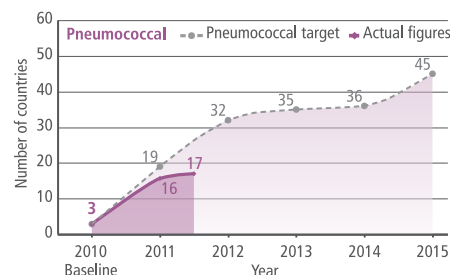

Strategic goal 1A Pentavalent:
Country introductions of underused and new vaccines

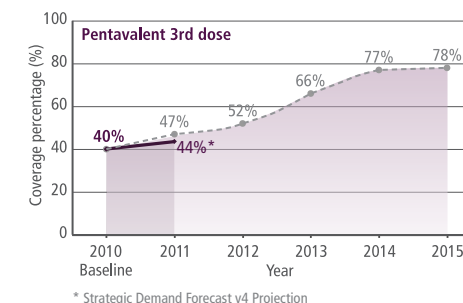

Strategic goal 1A Rotavirus:
Country introductions of underused and new vaccines

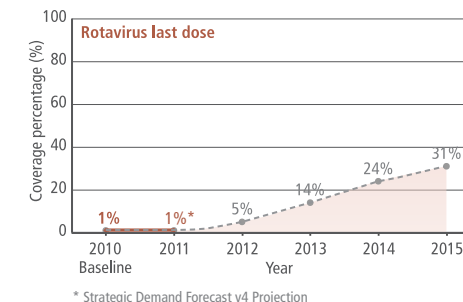

Strategic goal 1A Pneumococcal:
Country introductions of underused and new vaccines

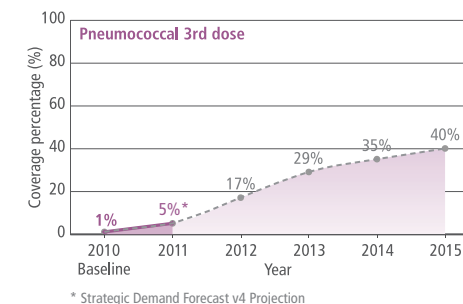

Strategic goal 1B - Pentavalent 3rd dose:
Coverage of underused and new vaccines

Strategic goal 1B - Rotavirus last dose:
Coverage of underused and new vaccines

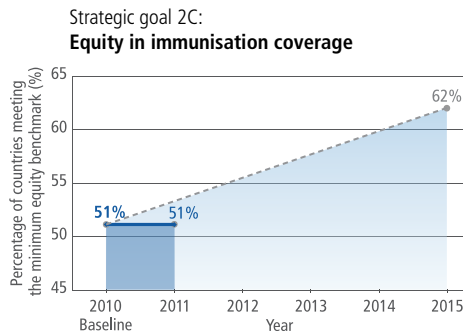

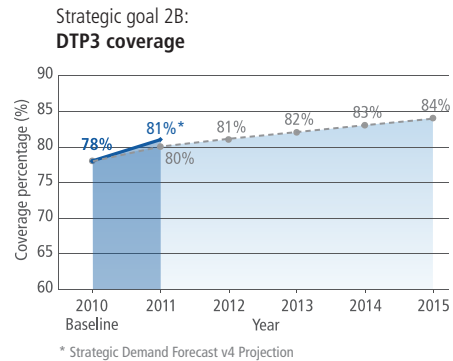

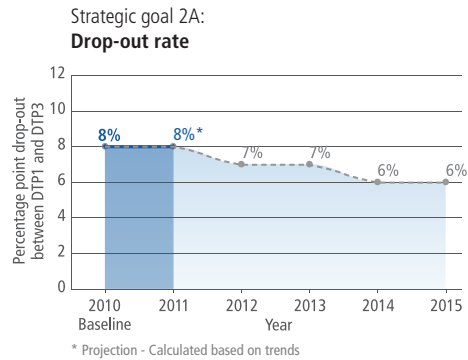

Strategic goal 1B - Pneumococcal 3rd dose:
Coverage of underused and new vaccines

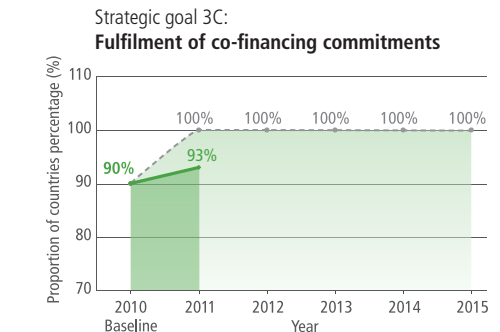

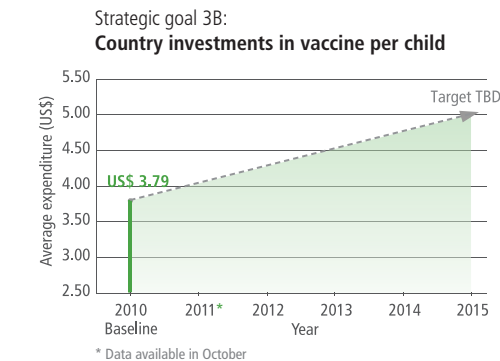

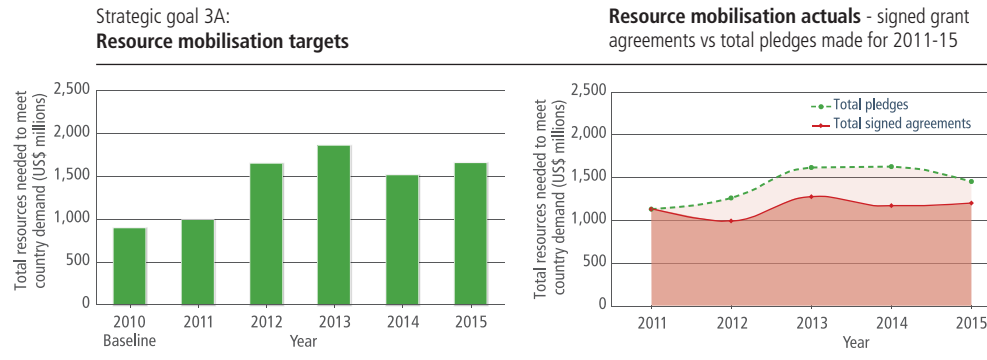

For detailed descriptions of indicators and data sources, please see: www.gavialliance.org/results/goal-level-indicators

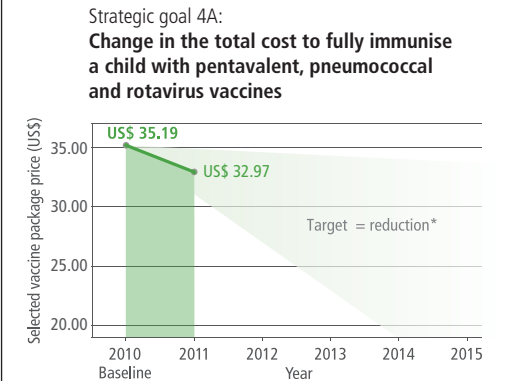

2 Contribute to strengthening the capacity of integrated health systems to deliver immunisation

3 Increase the predictability of global financing and improve the sustainability of national financing for immunisation

4 Shape vaccine markets

* Future targets are not publicised to avoid setting a floor to a minimum price

Strategic goal 4B:
Security of supply: Number of products offered as % of 5-year target

TBD
